*Quality from the Ground Up*

---

# Who We Are

*Engineered to Last. Built On Trust.*

From the ground up, we design, fabricate, and install canopies and wall panels that you can be proud of. With over 50 years of industry experience, we're relentlessly focused on quality and customer service. Whether you need a walkway cover or an intricate building facade design, if you can imagine it, we can build it.

# Our Capabilities

## Design

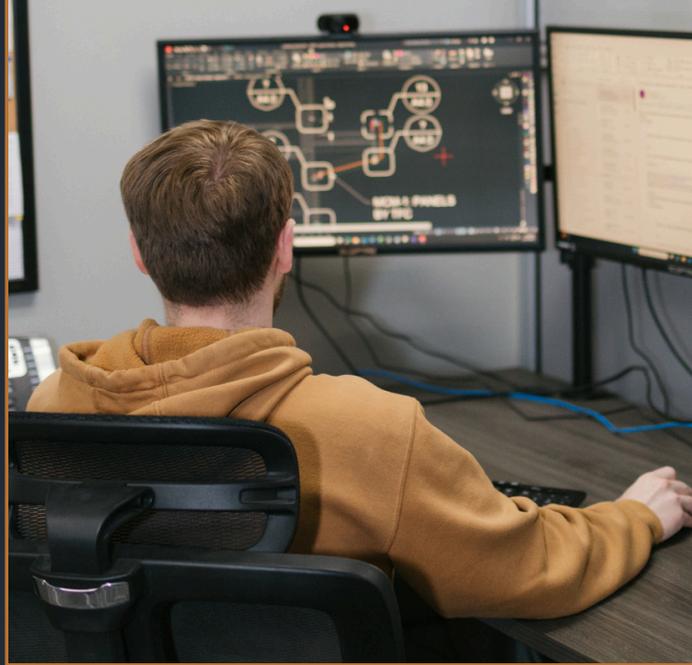

Our in-house team of engineers and detailers work meticulously to ensure your project is stunning and structurally sound.

## Fabricate

In our state-of-the-art facility, we bring your design to life by fabricating materials with precision at every step.

## Install

Our experienced installation crews construct your project efficiently and safely.

---

# *Fuel Canopies*

Our fuel station canopies are made with durability in mind. We build canopies that will last for years, with the curb appeal to keep bringing customers in.

---

# Wall Paneling

Beautiful aesthetics and high-performance come together in our wall panel systems to transform any building facade.

## TFC Series 1000

As our most cost effective option, the TFC series 1000 is a wet system using caulk joints to allow a completely dry MCM system.

## TFC Series 2000

The TFC Series 2000 is our most popular option. As a rainscreen system, the panels allow water flow without trapping moisture.

## TFC Series 2200

As our most premium option, this system is pressure equalized and drained and back ventilated. This series passes AAMA 508 & 509.

---

# *Architectural Canopies*

Our architectural canopies unite the reliability of our canopies and the strength of our wall paneling to make any building stand out.

# *Awnings*

Our awnings provide the perfect architectural accent for any building. Our aluminum solutions pair sleek, modern design with a resilient finish engineered to last for years.

## ***Let's Build Something That Lasts***

Every project starts with a conversation. Tell us what you're envisioning, and our team will review your plans, provide expert guidance, and deliver a detailed quote built around your needs, schedule, and budget.
